

FELAH NESSRINE

DATA SCIENCE & AI ENGINEERING STUDENT

monastir | nessrine.felah5@gmail.com | +216 99246494

Engineering student specializing in Data Science and Artificial Intelligence with a strong background in Embedded Systems. Passionate about Machine Learning, Deep Learning, Computer Vision, and Data Analysis. Experienced in developing AI-powered applications and full-stack projects. Seeking internship opportunities to apply technical skills and contribute to innovative projects.

AREA OF EXPERTISE

Artificial Intelligence	Data Science	Software Development
Machine Learning	Data Analysis	Full-Stack Development
Deep Learning	Data Visualization	REST APIs
Computer Vision	Data Preprocessing	Web Applications

KEY ACHIEVEMENTS

Developed a Lung Disease Detection System using CNN and Transfer Learning achieving 93.48% classification accuracy.

Built NutriSmart, an intelligent nutrition platform integrating interactive maps and healthy location recommendations.

Designed a CV Analysis & Job Matching System using NLP and RoBERTa for automated CV classification and job recommendation.

ACADEMIC PROJECTS

Lung Disease Detection using Deep Learning	2025
- Developed a CNN-based model for medical image classification. - Applied Transfer Learning using ResNet architecture. - Performed data augmentation and model optimization. - Evaluated performance using Accuracy, Precision, Recall, F1-score, and ROC-AUC. - Technologies: Python, TensorFlow, Keras, OpenCV, Flask, Streamlit.	
CV Analysis & Job Matching System	2025–2026
- Developed an NLP system for automatic CV classification. - Implemented job recommendation logic based on candidate profiles. - Fine-tuned RoBERTa model for resume analysis. - Technologies: Python, Transformers, NLP, Streamlit.	
NutriSmart – Intelligent Web Application	2025
- Developed a smart nutrition platform. - Integrated OpenStreetMap and Leaflet for geolocation services. - Implemented healthy restaurant and gym recommendations. - Designed interactive and responsive user interfaces. - Technologies: Symfony 6, PHP, MySQL, JavaScript, Leaflet.	

TECHNICAL SKILLS

AI & Data Science	Programming Languages	Databases	Frameworks & Tools
Machine Learning	Data Python	MySQL	VS Code
Deep Learning	Java	Oracle SQL	Git / GitHub
CNN	PHP	PL/SQL	IntelliJ IDEA
Transfer Learning	JavaScript		Flask
NLP	SQL		Streamlit
Data Visualization			

EDUCATION

Engineering Degree in Computer Science (Data Science & AI)

- Esprit School of Engineering
- 2024 – Present

Bachelor's Degree in Embedded Systems

- 2021 – 2024

Technological Baccalaureate

- 2021

LEADERSHIP & ACTIVITIES

HR Member – DevOps Club ESPRIM

- Participated in organizing technical events and workshops.

Active Member – IEEE ISIMM Student Branch

- Participated in engineering and technology activities.

Chief of Day Operations – Robotic INGENIM 10

- Coordinated event logistics and team management.
- Organized robotics competitions and technical activities.

ADDITIONAL INFORMATION

Languages

- Arabic: Native
- French: Professional Working Proficiency
- English: Professional Working Proficiency

Interests

- Artificial Intelligence
- Machine Learning
- Data Science
- Technology Innovation
- Robotics
